## **SURESH MALLINA**

**AS REGIONAL REPRESENTATIVE - SOUTHERN CALIFORNIA**

**[2023-2025]**

Dear TANA Members,

I have been an active member of TANA for the last 18 years. I have co-hosted and participated in numerous cultural and fundraising events for TANA in Southern California in the last two decades. Southern California is my home where I spent most of my life and the Telugu community here is my strength. With the support and encouragement from all corners of this community, I seek to serve as the Regional Representative of Southern California. My goal is simple. I want to build the support structure that is much needed to care for the needy in this community. I have seen far too many cases where lack of information resulted in chaos within families at the time of tragedy. I am optimistic that TANA has the core structure within TEAM Square that can help me achieve this goal.

In addition to my contributions to TANA, I supported numerous nonprofit organizations across the country and led several initiatives to support Covid relief activities here and in India when the pandemic hit. I have also worked with every local and national organization in Southern California and supported them in almost every event in the last two decades. I have been passionate about kids education and have raised funds to support the unfortunate ones in India and continue to do so. I also volunteer for multiple temples in Los Angeles area and support them to spread their spiritual activities.

As a soon to be empty nester, I want to dedicate more time for the community and for the activities I enjoy supporting. It would be my privilege to serve this Telugu community that I grew up with and strengthen this community further. I humbly urge your support in this journey of mine.

**I humbly request you to give me an opportunity to serve as a Regional Representative - Southern California**
